

TRANSITION

With: HEATHER HAPKE

The Senior Seminar class went to Jefferson County's Career Day and learned about a variety of careers they were interested in. Students practiced breathing and pumping on "CPR Manikins" and some got to practice using a fire hose while others chose to sit in the fire engine. The best part for the students was touring the inside of a semi-truck, realizing that many have their own beds, much like an apartment inside the truck.

The Employability Skills Class went to visit a Little Free Library to get ideas before shopping at Home Depot to purchase materials to buy our own!

Stay tuned for more details about the reveal party of RMDS' Little Free Library House!
